Important Notices and Privacy Statement. Page 1 of 4 Data Sheet Cisco IP Phone 7902G Cisco IP phones—an integral component of the Cisco IP Communications system—provide superior levels of integrated business features and converged communications—levels far beyond today’s conventional voice systems. As the market leader in true IP telephony, Cisco continues to deliver unsurpassed end-to-end data and voice over IP VoIP solutions, offering the most complete, stylish, and fully featured IP phone portfolio in the industry. Figure 1 Cisco IP Phone 7902G The newest member of the portfolio, the Cisco IP Phone 7902G, is a cost-effective, entry-level IP phone addressing the voice communications needs of a lobby, laboratory, manufacturing floor, or hallway—or other areas where only basic calling capability is required. The Cisco IP Phone 7902G Figure 1 is a single-line IP phone, with fixed feature keys that provide one-touch access to the redial, transfer, conference, and voicemail access features. Consistent with other Cisco IP phones, the Cisco IP Phone 7902G supports inline power, which allows the phone to receive power over the LAN. This capability gives the network administrator centralized power control—translating into greater network availability. Page 2 Calling Features Features will keep pace with. Page 3 Temperature. A licensed 7940G model number would be CP7940GCH1, a 7960G would be CP7960GCH1. The dealer usually advertises CP7940GCH1 or any licensed model at a very low price on eBay, their website or some comparison shopping site. Most people do not know the difference so they do not think much of it when the model numbers do not match up. There is a 7940G in the box and that's what they ordered so it must be ok right. They then might point to the End User License Agreement EULA which is included with all phones licensed and unlicensed and say that it is the Call Manager license. This is outright fraud and if it happens to you the phones should be returned immediately. If you put these phones on a Call Manager network you will be in violation of Cisco software licensing policies, will be subject to fines and forced to pay for license upgrades. Make them be verbally explicit that what they are selling is a legitimate Call Manager licensed phone and let them know that you are aware of the Call Manager license scam. Ask them if you end up receiving spares from them will pay for return shipping and not charge a restocking fee. Most of the time they will not want to hassle with it if they know that you know the deal and quickly end the conversation.
